Profile

Thomas is a member of Oxera's Finance & Valuation team. He has worked on state aid and regulatory finance cases and has a special focus on the aerospace industry. Thomas has wide experience in financial modelling and possesses knowledge of the Dutch financial markets.

Thomas graduated from the University of Cambridge in August 2020 with an MPhil in Finance and Economics, specialising in international finance. Prior to this, he completed an MSc in International Economics and a BSc in Economics & Business Economics from the Erasmus University in Rotterdam. Thomas also obtained his BSc in Business Administration from the Rotterdam School of Management (Erasmus University).

Selected professional experience
